Glendon Hunters <sup>24-1827</sup>  
17 May 1827

Sir

I have the honor to enclose a depo-  
 sition made <sup>before me</sup> by one Wm Wall an assid-  
 uous servant of belonging to G. Forbes Esq -  
 The instances of robbery & violence committed by the aborigines on the road between Browns Mans farm & the upper parts of Hunters River have been repeated & altogether with impunity. The dislike, indeed absolute unavail-  
 ness of people to go after them <sup>principally</sup> arises from the high responsibility attached to any violence committed on them - But I am a man so deeply interested in this topic, that I cannot be, by any means an unprejudiced writer. I shall therefore refrain altogether from remark, & throw up the <sup>consideration</sup> of well as myself
